

A great place to live.

The Cedarwood is warm and smart with room to entertain.

If you only need a few bedrooms on one level with a space to relax, you might cozy up to the Cedarwood. This plan offers four bedrooms with two of them being on the lower level. It's great to spend time with your family, but let's be reasonable. You need a place to recharge. Whether you have older kids or a lot of company, this plan will give you a place to put them all. Two living rooms are great because you can give your kids a place to hang out while you watch those old reruns you love so much.
